### Northwestern School of Police Staff and Command

The School of Police Staff and Command is an intensive ten-week program that prepares law enforcement managers for senior positions by uniquely combining academic principles with practical applications. Because research is a key component of the SPSC, many times a student's research project comes directly from a timely and critical issue facing that student's agency. The knowledge gained can be put to use immediately. From the time it was launched in 1983, the SPSC has received enthusiastic response from executives and trainers throughout the country. A review of the course curriculum verifies its completeness and appropriateness for organizational and personal development.

## 2009 Annual Report

### Citizens Police Academy

Since its inception in 2003, the Citizens Police Academy has provided an opportunity for citizens to learn first hand about police operations. Through classroom lectures, simulated activities, ride-along opportunity with patrol officers, guest speakers, demonstrations and hands-on experiences, citizens are provided training similar to that of a police officer. The academy is beneficial to both the community and the department because of the relationships that are developed. The program educates citizens about the realities of law enforcement in their community and fosters better cooperation and communication between the police and the public. To date, over 100 citizens have completed the CPA program.

### Reserve Police Officer Program

Reserve officers are required to complete over 100 hours of initial training, as well as annual in-service training. Since its inception, the program has provided the department with dedicated volunteers who assist with normal patrol duties and special events. In 2009, reserve officers worked 4,151 volunteer hours. Based on an officer's overtime pay, the savings realized by the use of these volunteers was \$145,285.

The Reserve Officer program was established in 1957.

### CERT Program

The Community Emergency Response Team training program is a positive and realistic approach to prepare citizens for emergency and disaster situations. Through training, citizens learn basic disaster response skills such as fire safety, light search and rescue, team organization and disaster medical operations. CERT members can assist others in their neighborhood or workplace when professional responders are not immediately available to help during a disaster or emergency. The police department is proud to collaborate with the Germantown Fire Department in the implementation of this program. Over two hundred and fifty community members have completed the CERT course.

### Police Chaplain Program

The vocation of a police officer is to protect, to serve, and to help people in an emergency. Sometimes, officers encounter people in trouble, unable to cope with their own problems, unable to follow laws of society and unable to live in peace and harmony. Police officers face many situations that can be demoralizing and emotionally, mentally and spiritually draining. Tours of duty have the constant potential for danger. Officers must make split-second decisions that are both correct and effective in a variety of situations. In the peacekeeping aspects of the police profession, officers come into contact with many of the same people that clergy contact. By combining forces, where appropriate, the police officer and the clergy are better equipped to meet the diverse needs of people in our complex society.

#### Department Chaplains

Dr. R. Craig Strickland  
Greg Diaz  
Dr. Jim Ellis

The Police Chaplain Program supports the mission of the Police Department and the individual officers in carrying out mandated responsibilities when requested to do so.

### Police Fleet

The department maintains a fleet of vehicles that includes marked patrol vehicles, unmarked vehicles, special purpose vehicles and ATV's. Each patrol car is equipped with state of the art equipment including a laptop computer, a digital video system and moving radar. Several patrol cars are equipped with "lo-jack" tracking devices that allow for the locating of stolen vehicles, when the car owner has had the transmitting equipment installed by the manufacturer.

#### 2009 Fleet Statistics

Total vehicles	66 (35 marked)
Miles driven	831,255
Average cost per mile	\$0.31
